Mr. Ingoorthe, Asst. Surgeon, has been deputed to England for the higher study of Mental diseases.

2. According to the order governing the scheme of Foreign scholarships & deputations, the number of officers of the several departments to be deputed each year is only five (vide Govt. proc. No. 1112-1-94 dt 25.5.20 Edn 5-19-119)

Submitted for orders.
8.6.21 8/6

3 There appears to be considerable force in the arguments put forward by the Senior Surgeon about the necessity for deputing a few junior officers of the Medical Department for undergoing training in foreign countries: But the question is one of funds. In another connection, it has been decided by Govt. that, on account of the present financial stringency, there need be no deputations of officers for foreign training in the coming year.

Rev. Secy.) 8/6/21.

2nd member may be deputed for the present - the question may be taken up next year when the budget comes before us.

We consider this should be such as would permit them to give their whole hearted attention to their higher studies and not to feel worries about themselves or their families on account of financial difficulties. In the light of this view I would prefer the alternative suggested by the Dist. Secy. viz. to make it a departmental deputation under Cl 14 of Rly. C of 28.8.20. This will be more satisfactory altogether. The S.S. will, I fear, not be able to bear this much for the deputation from his already attenuated budget grant. This is a point for Govt's consideration. The necessity & the urgency of the deputation are, they insist, indisputable.

Subject:—

Deputation of Medical Officers to England to qualify for higher degrees in Medicine and Surgery.

T&Z

In his letters, Nos. C. 63 and G.C. 25, dated 4th June and 26th July 1921, respectively, the Offg. Senior Surgeon urges the necessity of having a sufficient number of highly qualified men in reserve to undertake the administration of important Medical Institutions, like the Victoria, the Krishnarajendra and the Minto Hospitals. With this purpose in view, the Senior Surgeon suggests the desirability, nay, the immediate necessity, of sending a batch of intelligent junior men, now in service, to England to qualify for higher medical degrees and recommends that four men should be immediately deputed - two to qualify as Physicians and two as Surgeons by passing M.R.C.P. (London) and F.R.C.S. (England), respectively.

The Senior Surgeon, who was requested to make a selection of eligible men in service who are prepared to take a loan scholarship and go to foreign countries for training and report their names to Government, has made the recommendations in this behalf in his letter of the 26th October last.

U

The courses for the F.R.C.S. (England) and M.R.C.P (London) are long and stiff and only the best men available have to be selected for them. It is very necessary that the Medical Officers in charge of the Victoria, the Minto (Ophthalmic) and the Krishnarajendra Hospitals should be men with the one, or the other, of the above qualifications. The same observation applies to the Bangalore Maternity and the Vani Vilas Hospital, Mysore. In these matters we have to look long ahead. If the Officers now in charge of

Pwd

of these Hospitals fall sick or have to go on long leave, suitable officers, with the necessary higher qualifications, are not available and we cannot afford to put others in charge of the above institutions. For the foregoing reasons, I fully support the view taken by the Senior Surgeon.

Paper of Office Note

The Financial Secretary, who was consulted, is of the opinion that the loan scholarships recommended by the Senior Surgeon may be sanctioned, along with the concessions under Clause iii and iv of para 4 of Government Order dated 25th May 1920.

It seems to me that, in the case of junior Departmental Officers who are specially selected for foreign training, the conditions should be such as would permit them to give their wholehearted time and attention to their higher studies and not feel worried about themselves or their families on account of financial embarassment.

The Senior Surgeon will, I fear, not be able, however, to find funds for ~~the~~ deputations from his already attenuated budget grant. But the necessity, as well as the urgency, of the deputation are, to my mind, indisputable.

Page 10 of do-

The subject was considered in Council at their meeting held on 26th December 1921 when the following resolution was recorded:-

" Mr. C. Krishnaswami Rao may be given a loan scholarship of £ 250 for three years to enable him to qualify for the M.R.C.P. (London). He may, in addition, be given the concession recommended by the Financial Secretary, namely, those under clauses iii and iv of para 4 of the Government Order of 25th May 1920. If the amount required under clause ii is also wanted, it may be treated as an advance to be recovered with the loan ".

The resolution of the Council may be graciously approved.

From

Dr. H. B. Mylvaganam, F.R.C.S.,(Eng.)
Offg. Senior Surgeon in Mysore,

To

B. Ramaswamaiya, Esq., B.A., B.L.,
Revenue Secretary to the Government of Mysore.

Sir,

I have the honor to bring to the notice of the Government that owing to retirements, sickness and death among the senior officers, the efficiency of our medical service is threatened to be impaired in the near future, if measures are not taken up in time to remedy it. With the exception of Mr. Oosman and Mr. Subba Rao for general work and Mr. B. G. S. Acharya and Mr. B.K.Narayana Rao for eye work, there is no one among the senior officers who could undertake the administration of an important hospital like the Victoria, Krishnarajendra or Minto Hospital. If any of these officers should fall ill or go on leave, it would be difficult to replace them. Further the Victoria and the Krishnarajendra Hospitals require each two or more medical men with high qualificati... if we desire to raise the standard of efficiency of these two institutions in the State.

Owing to the high specialization of Medical science, it is no longer possible for one man to attain a standard of efficiency in all the branches to be useful to the community at large and to expect one man to be both physician, surgeon, gynaecologist, specialist in eye, ear, throat and nose diseases, diseases of the nervous system, skin &c., is as unfair to the man as it is to these special branches. The necessity for division of labour in Medical science has been long recognised in all the European and eastern countries like Japan and the Presidency towns of India. We h...

(12

been self/content in this State all these years and have been slow to adopt the necessary reforms for the advancement of Medical science. We cannot remain for ever with our eyes closed while rapid progress is being made ~~xxxx~~ in all directions around us.

The Government have spent large sums of money on the - erection and equipment of the Victoria and Krishnarajendra Hospitals and if they are not suitably officered, to meet the present requirements, full benefit from these institutions cannot be derived.

First and foremost, each of the hospitals requires a - physician with a high English qualification, such as an M. D.(London) or an M. R. C. P. (London). These two posts need filling up at an early date. We require next a specialist in ear, throat and nose diseases as it is desirable to continue the work already commenced at the Victoria Hospital without a break. It is also desirable that two men with high surgical qualification such as F. R. C. S.(England) or M. S. (London) should be employed in these two hospitals as the amount of surgical work to be done is too much for one man.

As it has been found difficult in the past to recruit men with high degrees for our service owing to the small pay offered, the only feasible way open to us to make good these deficiencies, is to send a batch of intelligent junior men of the service to England to qualify for higher degrees. No doubt this will take time but there is no way out of it. In the meantime if any suitable men - become available they may be entertained.

Even Dr. Gabriel who was offered what was considered to be a magnificient pay, did not think it worth his while accepting it.

I am fully cognizant of the financial stress we are - experiencing just now and my proposal may not be feasible even if acceptable, but I have felt it my duty in the interest of the - service over which I have been temporarily placed to bring its - defects and urgent needs to the notice of the Government. Unlike the Revenue, Judicial, Excise and similar departments, makeshift arrangements are not possible in technical scientefic departments, if efficiency has to be maintained. The difficulty experienced by the head of a scientefic department to fill up important vacancies

in the absence of suitable men is immeasurable at times. This difficulty is not likely to diminish in the future if steps are not taken in time to supply the want. The service needs a sufficient number of highly qualified men in reserve to meet unforeseen contingencies, instead of waiting for such contingencies to arise and to find us unprepared to meet them.

We have sent only one officer to England to qualify in surgery Viz. Mr. T. Seshachellam, but this is not enough. We should send at least four men this year to England and there are suitable men available in our service. We cannot afford to wait till financial conditions improve as the service is already depleted and there are not enough suitable hands for higher appointments in the service.. It takes time to qualify for higher degrees and the longer we delay, the worse it will be for the service.

In this connection I may point out for the information of the Government that in a small island like Ceylon with a population less by one million than that of Mysore, there were in 1919, 89 Government Hospitals besides the Lunatic and Leper Asylums. In the planting areas, there were 51 hospitals and 74 independent dispensaries.

The General Hospital at Colombo with 687 beds is officered by a Superintendent, 4 surgeons who possess the diploma of F. R. C. S.(England) and four physicians with the degrees of M. D. B. Sc. (London). Besides, there are two F. R. C. S. (England) one of whom is in charge of the Surgical section of the outpatient department and the other is the lecturer in anatomy. The total number of fully qualified men was 184 and 328 apothecaries.

The expenditure for 1919 on drugs and instruments obtained from Engalnd amounted to Rs.769,713. The cost of quinine amounted to Rs.288,282.

I have the honor to be
Sir,
Your most obedient servant

K. B. Mylvaganam

Offg. Senior Surgeon.

GEN & REV. SECTT.
27 JUL 1921

To.

B. Ramaswamiya Esqr., B.A., B.L.,
Revenue Secretary to Government,
Bangalore.

S i r,

Referring to my letter No.63, dated, 4th June 1921 Camp, Fernhill, I have the honor to invite the kind attention of the Government once more to the depleted condition of the Medical Department which requires early and preferential treatment in view of the unlimited advantage to the people of this state. The work of this Department cannot be measured in gold. It may not yield remunerative returns on its initial outlay, but the benefit derived by the Public from well equipped Medical institutions needs no special pleading. We cannot, in the interest of the state, allow our large Medical Institutions which have cost large sums of money in the past to deteriorate and lose their efficiency and usefulness, on financial grounds. The urgency is glaring at our face and we have to face it at all cost. The needs of the other Departments may afford to wait for a favourable time but as no man has the power to prevent the prevalence of diseases to suit our financial fluctuations, the needs of the Medical science stand supreme. At least four men need to be sent this year to prepare for higher Medical and Surgical Degrees. Sending men on short deputation to specialize in a subject such as Eye disease, Public health, tropical Medicine etc., will not be applicable in this instance. Definite and tangible results can only be obtained if men are made to pass the

the Examinations we suggest and obtain the diplomas or degrees.

2. Granting of free scholarships as in the past is not desirable. Instead, a loan scholarship may be given to each of the four men to be selected, because the benefit derived from the granting of such scholarships is not entirely one sided in favour of the Government. These scholars themselves are greatly benefited by their advanced education which they are unable to acquire owing to financial stress, without the aid of the Government. Another objection to free scholarship is that the recipients may not make the best use of their opportunities if the sum paid is not recoverable. All sorts of excuses may be advanced to justify their failures and we would have no hold on them to recover the sums spent on them in vain. When issuing loan scholarships, it must be made binding on their part to serve the state for ten years at least or to return the sum spent with a suitable interest, in case they wish to seek service elsewhere. If they join service no interest will be charged, but the sum spent will be recovered from their pay in suitable instalments. They will also be insured for the sums to be advanced and the policy endorsed in favour of Government.

Under these conditions the responsibility of Government will be less. It would only be an investment advantageous to both parties.

Unless early orders are passed there would be difficulty in their obtaining seats in London at the next winter session which commences in October next. We cannot afford to over look the urgent need of the service. I wish to send two men to qualify as physicians and two men as Surgeons by passing M.R.C.P., (London) and F.R.C.S., (England) respectively. Only young and intelligent men will be selected.

I beg therefore to solicit early orders of Government owing to the extreme urgency of the situation.

I have the honor to be,

S i r,

Your most obedient servant,

A. B. Bryceson

OFFG. SENIOR SURGEON.

Serial No 17

No. L. 1780

To The D.M.S. Senior Surgeon

Sir,

With reference to your letter No. C 25 dated the 28th July 24, request for the grant of loan scholarships to 4 men to be sent to England to study for higher Medical & Surgical degrees, I am directed to state that you may select eligible men in service for deputation with information to this Govt. whether they are willing to take a loan scholarship

over. I have &c.

(recommending the deputation of four officers of the Medical Department to England to study for higher medical and surgical degrees, I am directed to request you to be so good as to make a selection of eligible men in service who are prepared to go on deputation and are willing to take a loan scholarship & to furnish sureties for honesty and report the names to Govt.

No. G.C. 25-19 Office of the Senior Surgeon in Mysore,

Dated, Bangalore, 26th October 1921.

From

The Offg. Senior Surgeon in Mysore,

BANGALORE.

To

The Secretary to Government,

Revenue Department,

BANGALORE.

Sir,

With reference to your letter No.L.1730/Med. 77-20-17, dated 23rd September 1921, I have the honour to state that 17 selected Assistant Surgeons of the Department, i.e., those who had put in at least five years' approved service and who were not more than 40 years of age, were asked if they would accept loan scholarships and proceed to England to qualify for the M.R.C.P. of London or F.R.C.S. of England, Fourteen have replied, seven to the effect that they were not prepared to go to England and seven expressing their willingness. The three that have not replied may be considered to be unwilling too.

2. Of the seven officers who have agreed, Messrs. N.S.Nanjundaiya, B.Rajagopala Naidu, P.R.Subba Rao and M.Hirianniya are only Licentiates in Medicine & Surgery of the Madras University under the old regulations which fixed only a four years' course for that Degree. Their knowledge of Anatomy and Physiology is rather antiquated and their general capacity for higher study very poor. Mr. C Narayana Rao has no doubt the advantage of having worked as a Demonstrator in Physiology in the Local Medical School. But he is not willing to go unless a free

free scholarship is granted to him. He too is only an L.M.&.S. of Madras,.under the old regulations and has therefore to be left out.

3. I therefore recommend the cases of Mr. K.Srinivasachar and Mr. C.Krishnaswami Rao for the grant of loan scholarships of £250/- a year each, for a period of two years, with passage money and other incidental expenses.

4. Mr. Srinivasachar had a very successful career, first in the Royapuram Medical School (Sub Assistant Surgeon's Course) and then at the Madras Medical College (M.B.B.S.course). He has shown a good aptitude for surgical work and been found to be a steady worker. As a Demonstrator in Anatomy and Physiology and latterly as Lecturer in Anatomy, he has had opportunities of keeping up his knowledge of these two important subjects, an advantage which will go a great way to help him in his course for the F.R.C.S.diploma for which he is hereby recommended.

5. Mr. Krishnaswami Rao, B.A.,M.B.B.S., has also proved to be a conscientious and steady worker and his connection with the clinical laboratory of the Victoria Hospital and with the Medical School as Lecturer in Bacteriology and Pathology, make him eminently qualified to prosecute his studies for the M.R.C.P.of London, for which he is recommended.

6. Both these officers have, while expressing their willingness, represented certain difficulties and I am inclined to sympathise with them as they are officers well settled in life and have domestic responsibilities to meet. Their representations are submitted herewith in original, for favour of orders. I strongly recommend that both of them may, as a special case, be granted the concessions mentioned in clauses (ii) (iii) and (Iv) of para 4 of G.O.

G.O.No.1121-94-/Edn 5.19 119, dated, 25th May 1920, the scholarship of £250/- per annum alone being considered as a Loan repayable in accordance with Rule XV of the revised rules appended to that order, the whole expenditure involved being met from the savings and grants under "Foreign Scholarships". Any leave allowances that may be granted to them may be met from the Medical budget.

I request the favour of very early orders.

I have the honour to be,

Sir,

Your most obedient servant,

L.B. Duggan

B.V.A.

Offg.Senior Surgeon.

MINTO OPTHALMIC HOSPITAL,

Dated, Bangalore, the 12th October 1921.

From

K. Srinivasachar, M.B. B.S.,

Resident Medical Officer, ✓

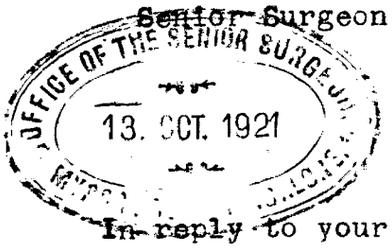
Minto Ophthalmic Hospital, Bangalore.

To

Dr. H. B. Mylvaganum, F. R. C. S.,

Senior Surgeon with the Government of Mysore,

Bangalore.



Sir,

In reply to your Circular No.G.C.25/4 dated 27th September 1921, enquiring if I am willing to go to England to study for M. R. C. P., or F. R. C. S., on loan scholarship, I beg to submit the following for favour of consideration:-

2, I started service in the Medical Department of the State as a Sub Assistant Surgeon in 1907 and while in service was awarded as scholarship by the Government to study for the Examination for the M. B. B. S., Degree of the Madras University which accordingly I took after five years' study in 1916. I was appointed an Assistant Surgeon in 1916 and since 1918 I have been working as the Resident Medical Officer of the Minto Ophthalmic Hospital.

3. I am now 39 years old and have put in 14 years of service including the period of study at Madras. I am the sole earning member of my family consisting of my aged parents, a brother and sisters, and four children all young. In consideration of the above and in view of the fact that a large number of students have been deputed on free scholarships at different times for various kinds of study, I beg to submit that a loan scholarship is not sufficiently encouraging to a person of my age, service and responsibilities. I pray therefore that a free scholarship of £ 250/-

per annum subject to the conditions of the Government Order No. 11121-94/Edn. 5-19-119 dated 25th May 1920 may be granted to me or more reasonably that I may be deputed to study for the F.R.C.S. under paragraph 4 of the G.O. cited above and granted the following:-

(i) A maintenance allowance of £ 200 per year,

(ii) privilege leave and furlough entitled to and special furlough for the rest of the period.

(iii) travelling and other incidental expenses,

(iv) treatment of the period of absence as on service.

4. If neither of the above courses is feasible, I am, in view of the needs of the Department, prepared to accept a loan scholarship even though the prospect of the repayment of the loan on my return at the advanced age of about 42 will always be a gloomy one. I beg, however, to urge that my three years training in the Ophthalmic Hospital may not be allowed to be wasted and I may be allowed to use the loan scholarship to study for M. R. C. S., (London) and D. O., (Cambridge) and granted the following ~~concessions~~:-

(i) All the privilege leave and furlough entitled to and special furlough for the rest of the period if any.

(ii) maintenance allowance of Rs.100 per month for my family in India,

(iii) loan of passage money, equipment charges and cost of my maintenance in England to be repaid after my return.

5. In conclusion, I request that you will kindly view my application favourably and recommend my case to Government for a generous treatment.

I beg to remain,

S i r,

Your most obedient servant,

K Sreenivasachar

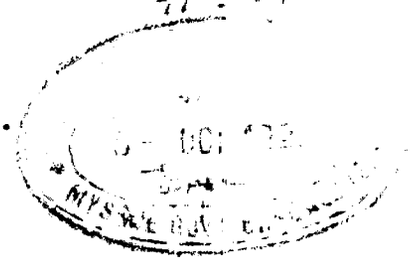
C. Krishnaswami Rao, B.A., M.B.& B.S.,

Assistant Surgeon,

Victoria Hospital,

Bangalore.



To

The Senior Surgeon

with the Government of Mysore,

Bangalore.

Sir,

I thank you for the kind offer of a Scholarship for purposes of study in England and I beg to state that I may be permitted to qualify myself for the deploma of the M. R. C. P. (London). While I thank you for your kind encouragement, I beg to place before you certain facts which require a liberal consideration at your hands and by Government Having in view the great need for properly trained men in the department I have decided to leave the matter entirely to your kindness and the generosity of Government in determining the conditions governing my deputation and hope that the facts mentioned in the memo annexed will go a long way in such a decision.

I beg to remain,

Sir,

Your most obedient servant

C. Krishnaswami Rao

Bangalore —
5th Oct 1921

Memo attached

Proceedings of the Government of H. H.
the Maharaja of Mysore.

Read:-

Govt. Order No.11121-94/Edn.5-19-119 dated the 25th May 1920 laying down revised rules for the award of foreign scholarships.

2. Correspondence ending with letter No.G.C.25-19 dated the 26th October 1921 from the Senior Surgeon in Mysore, recommending, among other things, that Mr. C. Krishnaswami Rao, B.A., M.B.B.S., Assistant Surgeon, Victoria Hospital, Bangalore, be granted a loan scholarship to prosecute his studies for the M.R.C.P., ~~Examination~~ of London, and that he may, as a special case, be granted the concessions mentioned in clauses (ii), (iii) and (iv) of para 4 of the G.O. dated 25th May 1920, read above, the scholarship of ~~£~~ Rs.250/- per ~~ann~~ annum, alone being considered as a loan, repayable in accordance with Rule XV of the revised rules appended to the said order, the charge involved being met from the savings and grants under Foreign Scholarships and that the leave allowance that may be granted to him may be met from the medical budget.

Order--No. L.4484-7

Dated 7th February. 1922.

The Senior Surgeon reports that Mr. C. Krishnaswami Rao, B.A., M.B.B.S., Asstt. Surgeon, Victoria Hospital, Bangalore, is eminently qualified to prosecute his studi for the M.R.C.P. ~~of~~ London, and re~~co~~ ~~mmdi~~

recommends the grant to him of a loan scholarship of £250/- per annum with certain other concessions.

In the circumstances represented -- Govt. are pleased to direct that Mr. C. Krishnaswami Rao be given a loan scholarship of £250/- for three years to enable him to qualify for the M.R.C.P, London the charge being met from the source indicated. He may, in addition, be given the concessions under Clauses iii and iv of paragraph 4 of the Govt. Order of 25th May 1920. If the amount required under clause ii is also wanted, it may be --- treated as an advance to be recovered with the loan.

3. The scholarship will be subject to the usual conditions of satisfactory --- progress and conduct.

4. The Senior Surgeon is requested to take the necessary agreements of --- service and security from the candidate before the scholarship amount is disbursed to him. He is further requested to obtain and forward to Govt, for information, --- periodical progress reports about Mr. C. Krishnaswami Rao.

D.O. No. L. 4488.

General and Revenue Secretariat,

Dated, Bangalore, 7th February 1922.

Dear Sir,

In continuation of Government Order No. 4484-7/Med.77-20-29 dated the 7th February 1922, and with reference to the correspondence ending with your D.O.letter No.G.C.175-10 dated the 26th January 1922, in the matter of the grant of a foreign scholarship (Damodar Dass) to Mr. C. Krishnaswami Rao, Assistant Surgeon, I am desired to request you to instruct Mr. Krishnaswami Rao to proceed to England at once on the terms sanctioned in the Government Order referred to above.

I am also to request you to kindly send up for the further orders of Government the opinion of the Committee appointed in accordance with paragraph 1 (3) of Government Order No.2351-4/Edn. 17-21-80 dated the ~~xkm~~ 17th December 1921, regarding the selection of a candidate for the award of Damodar Dass Scholarship for the study of medicine; Government think that it is not right to anticipate the selection of the Committee in such cases.

Yours Sincerely,

K.Subbarayappa

Dr. H. B. Mylvaganam, M.R.C.S.,

Senior Surgeon in Mysore, Bangalore.
